PROFESSIONAL SUMMARY

High-performing IT professional with passion for managing and leading cross-functional, agile international teams. My area of expertise lies in planning and executing entire process of IT projects with a robust awareness of agile methodologies which include SCRUM. Skilled in requirement engineering, UX design thinking, defining user stories, and meeting business desires inside SAP ecosystems. With a strong foundation in software architecture and development, web technologies, and database systems, I excel in agile software development. Additionally, I have a talent for developing trainings and rollout strategies, ensuring effective project coordination, and presenting project updates in steering committees.

AREA OF EXPERIENCE

✓ Software Development	✓ UI/UX Designer	✓ Development and DevOps
✓ Product Owner	✓ Cloud Service (AWS, Azure)	✓ Coding and Code Quality
✓ Requirement Gathering	✓ Version Control Systems	✓ Agile Methodologies
✓ Project Planning and Leadership	✓ Documentation	✓ Cultural Competence

WORK EXPERIENCE

Robert Bosch GmbH

Stuttgart, DE

Software Engineer in DevOps and UI/UX Designer

July 2022 – Present

- Developed and maintained responsive and user-friendly web applications, ensuring a seamless and intuitive user experience across multiple devices and browsers.
- Implemented multi-level security features within the Angular framework to enhance website security and protect user data, resulting in zero reported security breaches over a period of 2 years.
- Implemented pixel-perfect and visually appealing user interfaces based on design mock-ups and wireframes, meeting high-quality design standards.
- Transitioned into UX/UI designer to translate design concepts and user stories into functional and interactive web elements, incorporating user feedback for continuous improvement using Figma and Adobe XD.
- Conducted code reviews, collaborating with backend developers to ensure code consistency, readability, and adherence to coding standards. Regularly engaged with Git and maintained automated testing processes to validate frontend functionality, identifying and addressing potential issues early in the development lifecycle.
- Actively participated in agile development methodologies, contributing to sprint planning, daily stand-ups, and retrospective meetings.

Bosch Rexroth AG

Ulm, DE

Software Application Developer

September 2020 – June 2022

- Analyzed business requirements of area sales and distributions (SDI) in Mobile Hydraulics (MH). Developed web applications to obtain a database on product comparable percentages and established transparency between sales managers, sales engineers, and solution partners, resulting in a 16% increase in sales efficiency.
- Collaborated with senior management stakeholders on multiple functions including customer success, created applications such as virtual platforms, partner conference platforms, and application product selectors.
- Demonstrated proficiency in continuous deployments, contributing to the team's commitment to operational excellence and efficient software delivery.
- Managed and maintained cloud infrastructure on Azure DevOps platform, optimizing resource utilization and cost efficiency.
- Evaluated 100+ sales partners and engineers worldwide by engaged them with our digital tools and the company's culture, assessing their strengths, opportunities, and overall skills. This improved their daily task productivity by 23%.
- Mentored and supported the growth of other developers, fostering a collaborative and learning-oriented team culture.

EDUCATION

Chemnitz University of Technology

Chemnitz, DE

MSc in Automotive Software Engineering (GPA: 2.1)

- Organizations: Hochschule SMD, UNICEF, ICCF

Rashtrasant Tukadoji Maharaj Nagpur University

Nagpur, Maharashtra, India

BE in Computer Science and Engineering (GPA: 1.7)

- Organizations: Rotary.org, SSO

SKILLS & INTERESTS
